C : Reading Comprehension : Passage(1)

Read the following passage and match each paragraph with one of the headings . Write the letters (A , B , C , D , E) in front of the numbers of the paragraphs. There is one extra heading.

Headings

- (A) Get a good night's rest. (B) Sit up straight.
(C) Find time to relax. (D) Spend more time in the open air.
(E) Go for a run.

Looking good**Feeling good**

43. Running is excellent exercise. Before you start running, you should warm up first, using slow movements that make all your muscles work. But be careful! If you stretch when your muscles are cold, you might do yourself an injury. Always wear comfortable clothing and make sure your trainers (shoes) are in good shape. If you wear shoes that give good support to your whole foot, you will put less pressure on your knees. You should start exercising slowly, at a speed you can keep up for about 15 – 20 minutes.
44. It is ok if you sometimes go to bed late but if you regularly cut down on your sleep, it will soon start to have a bad effect on your skin. If you get a good night's rest, it will do your appearance the world of good. It is not called beauty sleep for nothing! Lack of sleep can cause acne or dry skin. Make sure you get a good night's sleep. Go to bed and get up at regular times. During the day, keep active: Get sufficient exercise so that you can sleep well at night.
45. Did you know that standing, sitting and walking badly can make you look heavier than you really are? If we watched the way we sat and stood, it would improve our appearance very much. Stand in front of the mirror with your feet apart and your legs straight. Pull in your tummy, check that your ears, shoulders, hips, knees and ankles are in line with each other. You should be feeling and looking better already!
46. Most of us live in large polluted cities. If we get more fresh air, we would look healthier and more attractive. Walking slowly is useful but a quick pace gets more oxygen into your lungs. So don't just go for a slow walk, try and find an area that doesn't have much pollution, and get moving!

4 passage (2)

Read the following passage and answer the questions as required.

Groups of people living together are called societies. Differences in the behavior of individuals put pressure on the society. These pressures are called social pressures and stress. The social pressures affect all the people in the society. Every large city in the world has problems with the social pressures, and many cities have been trying to solve these problems.

All social pressures are caused by the way people live. When people constantly live under stress, they are often unhappy and unhealthy. Often they live under stress because they are not aware of the things that cause stress in their lives. In order to find out what things are causing stress, people must be willing to think about how they live, how they work, how they play, and how they think about themselves. If they do this, they can find out what they should change in their lives, in order to decrease their stresses and to be happier and healthier.

Sometimes when people are asked if they are happy they have a hard time answering. Some people can't even tell you what makes them happy or unhappy. They often don't know why they are tired, or why they have headaches or stomachaches. Often these uncomfortable feelings come from living under constant stress.
